Ben Kuzay is a composer, multi-instrumentalist, and one of the world's leading instrumental bassists. Known for his riveting compositions and virtuosic playing ability, he has earned a great reputation among fans and musicians alike. His third and latest cd *Beyond Black Mirrors* came out on November 15th, 2011, and features ambient music with occasional forays into classical and rock. His previous album *Perpetual Reign* was the first album ever, by anybody, to feature as its format lead bass with metal accompaniment. Kuzay is credited with having influenced a movement of instrumental bassists whose purpose in creating music is strictly the art of self-expression.

Aside from his solo music, Kuzay is also a session musician, having graced the stage or studio with many world-class musicians, including:

MONSTROSITY
RICHARD CHRISTY
DAVID HARBOUR
WYKKED WYTCH
JOEL WANASEK
MIKE PHILIPPOV
DUANE TIMLIN

Ben Kuzay currently performs one-man shows of his original music. He uses no backing tracks, so his concerts are fully organic.
